Education

Pune Institute of Computer Technology <i>T.Y Bachelor's of Engineering in Computer Engineering</i>	9.0/10 <i>2022 – 2026</i>
Modern High School and Junior College <i>Class XII</i>	92.5 % <i>2022</i>
Dnyanvardhini English Medium School <i>Class X</i>	96 % <i>2020</i>

Projects

RoomReserve - A Travel App Project | *MERN, JavaScript, CSS, React-Redux*

- Developed an application offering users a seamless experience to book accommodations in most interactive way
- Integrated features such as secure payment processing, user reviews, personalized recommendations, and an interactive map for easy navigation
- Facilitated the MERN stack (MongoDB, Express.js, React, Node.js) for robust back-end and responsive front-end development
- Compiled JavaScript and CSS for dynamic and stylish user interfaces. Implemented state management using React-Redux to ensure efficient data handling and user experience

TruthGuardian - Realtime Fact-Checking for Social Media (Live Demo) | *React, Tailwind, FastAPI, MongoDB, JWT*

- Developed TruthGuardian, a real-time misinformation detection platform using Google Custom Search, Fact Check API, and Gemini API, analyzing 50,000+ sources.
- Engineered a claim verification system, achieving 85%+ accuracy and reducing misinformation classification errors by 40%.
- Built a secure authentication system with JWT and MongoDB, managing 10,000+ verified claims per user session.
- Deployed the backend on Render, optimizing API response times by 30% for real-time claim verification.

GetSeated - A seat Management System | *Javascript, Express, Flutter, PostgreSQL*

- Developed a dynamic seat management system for educational reading halls, enabling real-time seat reservations and fair allocation based on current demand
- Pursued PostgreSQL for robust data management, including seat data, user profiles, and booking information
- Established an intuitive, responsive interface using the Flutter SDK for the front-end and JavaScript libraries like Express and Bcrypt for backend functionalities
- Ensured compatibility across major operating systems (Windows, macOS, Linux) and web browsers, with support for testing, debugging, scalability, and data backup

Technical Skills

Programming Languages: C++, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Eclipse, Jupiter

Technologies/Frameworks: Linux , GitHub , ReactJs, ExpressJS, NodeJS, Tailwind CSS

Positions of Responsibility

INC 2024 <i>Event Administrator</i>	2024 <i>PICT, Pune</i>
---	----------------------------------

- Coordinated and managed the participation of various student project activities, ensuring smooth conduct
- Assigned appropriate laboratories and facilities to participants, optimizing logistics
- Collaborated with team members to address and resolve logistical challenges, enhancing overall user experience

CSI XENIA 2024 <i>Publicity Team Member</i>	2024 <i>PICT, Pune</i>
---	----------------------------------

- Promoted the XENIA event by visiting multiple institutes, engaging with students and faculties to raise awareness. Conducted informative sessions to explain the event's benefits and encourage participation
- Improved event engagement through effective communication and persuasive techniques
