EDUCATION

The Bishop's Co-ed School ICSE 10th 97.8%

The Bishop's Co-ed School ISC 12th 98.7%

3rd year student at Pune Institute of Computer Technology (BE in Information Technology)
(maintained a cgpa of 9.25)

WORK EXPERIENCE

Web Development Inhouse Internship

Pune institute of Computer Technology, Information Technology

- Worked under the supervision of the IT Head of Department to develop and maintain a website hosted on the college server.
- Developed a web application to streamline the process for students and teachers to record their achievements, replacing the need for end-of-year Google Forms.
- Implemented the project using a tech stack comprising React, Node.js, Express, and phpMyAdmin, ensuring a robust and efficient solution.

PROJECTS

Web Development Project – Learning Management Website

Pune institute of Computer Technology, Information Technology (2nd Year)

- Developed a comprehensive Learning Management System (LMS) using the MERN Stack to showcase and manage courses offered by PICT.
- Designed a user-friendly interface that allows students to easily view and register for courses.
- Developed features for instructors to upload courses seamlessly and monitor student registrations and engagement.

Task Management Website

- Developed a task management website to help users organize their tasks, classify them as important or completed, and enhance productivity.
- Utilized the MERN Stack to implement the project, focusing on CRUD operations for task creation, editing, and deletion.
- Implemented JWT Token authentication for secure user access.
- Currently integrating reminders and deadline features to assist users in remembering tasks and preventing procrastination.

CERTIFICATION COURSES

- Web Development Bootcamp from Udemy
- Python by Kaggle
- Machine Learning by Kaggle
- Supervised Machine Learning: Regression and Classification from Coursera

SKILLS & TOOLS

Technical Skills:

- Java, C++ and Python
- Data Structures and Algorithm
- HTML, CSS, JavaScript, MySQL
- MERN Stack and JWT authentication
- Rest APIs
- Supervised Machine Learning Algorithms

Interpersonal Skills:

- Problem Solving
- Adaptability
- Teamwork
- Time Management
- Communication

Tools:

- Github
- Visual Studio Code
- MS Excel
- MS Powerpoint
